

Blue Transition Policy Roadmap Towards Transparent, Responsible, Inclusive and Sustainable (TRIS) Development in the Mediterranean

Authors: Rym Ayadi and Carlo Sessa (in collaboration with EMNES Partners)

How did we get here?

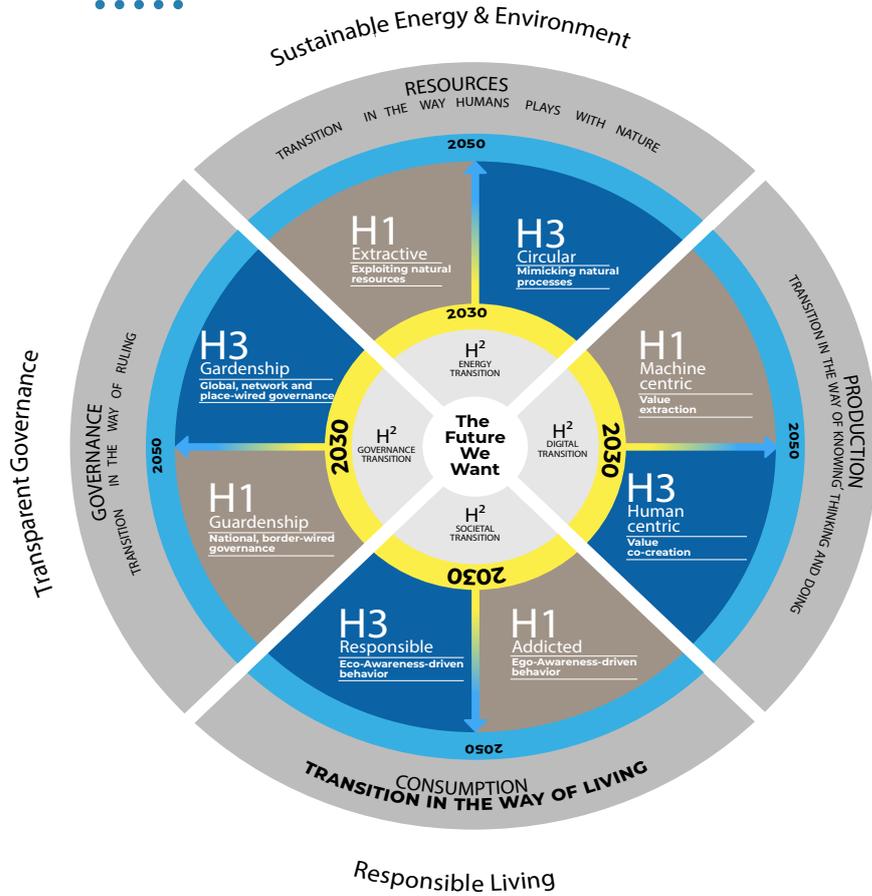

Global Context

- Globalisation
- Digitalisation
- Automation
- Global Pandemics: Covid-19
- Globotics
- Blockchain
- Pan-Industrialisation

Shaping the Future

Strategic Framework towards TRIS

Who's it for?

Stakeholders and public engagement in foreseeing "the future we want"

Defining the Blue Transition Scenario (BTS) for 2050

Looking to the future of the Mediterranean

- Dialogue across the different civilisations
- A common project – a Mediterranean partnership built on the inclusive society principle
- Regional strategies and shared action plans for TRIS development

The Blue Transition Scenario is a process-potentially never-ending

Three Horizons Methodology

H1

Inertial scenario, where the system will stand in 2050 if current drivers and trends will continue unchanged

H3

Transformative scenario, how the system will look in 2050 if new emerging paradigms will become dominant

H2

Window of opportunity, what can be done until 2030 to adapt the best future outcome

Blue Transition Road Map

(based on 2050 scenarios and EMNES research)

Blue Transition Policy Roadmap applied on the socio economic pillars: institutions, STI, private sector, labour and trade
